

FIG Enigma

Crosswords are always fun, as they say but how can one make it more interesting? Easy by having a Financial Crossword involving numbers! This was the motto of the FIG Enigma – Financial Activity conducted by CMS Business School for the students of batch 2015-17.

The session was conducted by Dr. B Ragahvendra Rao, Prof. KV Sridhar and Prof. Gopinath. The activity lasted for over an hour but the enthusiasm and energy was high and contagious till the end. The students were divided into groups and given puzzles and crosswords to solve and at the end of the session the results were announced along with the winners. There were no losers, as everyone stood to gain knowledge about stock market and other financial terms!
