Data Analysis

5th July, 2016

The FDP on “**Data Analysis by using the R software**” was organized by CMS Business School, Jain University which was held on **5th July, 2016**. The key speakers and trainers for the event were Dr. Lakshmi Narayana, Dr. Omkar Raikar and Mr Vashist. Various technical concepts were taught by the speakers such as data analysis and visualization, knowledge and application by using the R software.

The participants were explained about Analytics, types of problems and business objectives in various industries, critical success drivers, steps in Analytics process, and identifying the most appropriate solutions for a given problem statement and how to plan for projects involving analytics.

A background on functional programming was also presented and the participants were encouraged to build their own functions.
