1. Introduction:

Data Analysis or Statistical Analysis is unavoidable in business decision-making due to increased competition in every sphere of business. A growing number of formally educated working professionals tend to club their common sense conclusions with scientific reasons and logic. Knowledge of appropriate Data Analysis techniques certainly provides an edge towards finding appropriate answers to the day-to-day seemingly simple but complex business issues. Faculty members and researchers find Data Analysis or Statistical Analysis as an integral part of their content for discussion/learning/decision making.

This PDP is intended to help sharpen their basic awareness, computational and analytical skills using basic statistical tools ranging from mean, median and mode till kurtosis, descriptive statistics, basic parametric tests like chi-square test, correlation and regression. The program is designed to cover all relevant aspects of Statistical Data Analysis starting from the very basics of Data Preparation, Data Cleansing to basic Inferential Statistical Techniques.

2. Venue (Outside/Inside the campus): Online using ZOOM Platform.

3. Program Objectives:

- To introduce the basic tenets in descriptive statistics.
- To uncover the Basics of Parametric and non-parametric tests.
- To interpret Measurement Scales and Hypothesis testing.
- To explain and uncover applications of one sample t-test, paired sample t-test, independent sample t-test..
- To evaluate the data using Anova, Post Hoc and non-parametric tests.
- To Assess the data using the Chi-Square test, Correlation, and Regression.
- The objectives were to
- To Provide a balanced mix of conceptualization and hands-on experience in computing the basic tools in statistics.
- To explore the basics of Statistics and its role in improved decision making

4. Relevance to PO and Relevance to PEO

PO	Program Objective (PO)
PO1	PO1 - Apply knowledge of management theories and practices to solve business problems
PO2	PO2 - Develop analytical and critical thinking abilities for data-based decision making
PO3	PO3 - Understand, analyse and communicate global, economic, legal and ethical aspects of business
PO4	PO4 – Identify and apply trans-disciplinary tools and techniques for projects and solving problems
PO5	PO5- Lead oneself and others in the achievement of organizational goals and contribute effectively to a team environment
PO6	PO6 - Inculcate entrepreneurial mind-set for sustainability
PO7	PO7 - Imbibe value-based leadership for Excellence
PSO	**Program Specific Objective (PSO)**
PSO1	Demonstrate effective response to industry challenges by applying managerial tools and techniques for a sustainable society
PSO2	Appraise the complex specificities of Indian Business to garner global reputation
PSO3	Develop a holistic thinking solopreneur for a self-sufficient society

5. Activity Overview:

The seven days' PDP was attended by research scholars and academicians interested in learning of basic statistical tools, with a special focus on one sample t-test, paired sample t-test, independent sample t-test, Anova, Post Hoc, non-parametric tests, Chi-square test, Correlation and Regression.

6. Guest/Speakers' Profile:

Dr. Chaya Bagrecha

Subject: Welcome to the PDP | Decoding Statistics for Data Analysis

Dear Sir/Ma'am,

Greetings!

Welcome to the **7-Day** Virtual **Professional Development Program (PDP)** on **"Decoding Statistics for Data Analysis",** which will be held from 1st - 9th December 2022, organised by CMS Business School, Faculty of Management Studies, Jain (Deemed-to-be University) in association with the Institute of Analytics (IoA), London.

The PDP has received warm responses from the academic and research community across disciplines, across the country and beyond.

We believe that all of you are looking forward to this PDP and hence have already kept yourselves free of other commitments for all the above seven days. Complete participation in

all seven sessions is important for clear learning of the concepts and receiving the PDP certificate.

Please note:

1.   Participants, kindly log in 10 minutes early on all days. The Zoom login credentials are:

Meeting ID: 916 4252 3999
Passcode: 12345
    OR
    Use the link:
https://zoom.us/j/91642523999?pwd=OEZvS2NJTWZFaG9jRHd3NXhmSmRaQT09

    for all seven days.

Please do not share the above information as it is meant for the registered participants only. We ask you to use the WhatsApp group only for intellectual discussions and **not for login credentials.**

Ensure strong and uninterrupted internet connectivity for peaceful learning. We request you keep the video/audio 'switched on' during the session for active participation. We further ask you to plan for a spot in your place that is quiet enough to allow free participation in the PDP.

2.   It is preferable to log in from a laptop/desktop. If required, kindly arrange for the same.

3.   PFA two worksheets as shared by the resource persons. It's recommended to keep a printout ready for using, during the session.
