

## **Business Practitioner Session**

**Event – 1 Date:** 07-10-2024

**Activity Name:** Business Practitioner

**Faculty Coordinator:** Dr, Vijaya G S

**Faculty Coordinator Contact No.** 9902532047

**Guest Name:** Mr. Lokesh Naidu

**Guest Designation:** CEO and Co-founder of

**Company Name:** Loksun.ai and Octopi Health

**Topic:** ERP Project Implementation

**Duration:** 1.5 hours

**Venue:** Lecture Hall – 711, 7th Floor, FMS-CMS,BS-JU.

**No. of Participated:** 30

**Summary: (Write-up required minimum 4 to 5 lines)**

The session provided a comprehensive understanding of ERP systems, focusing on transition strategies, the implementation process, and challenges in project management. Participants explored different ERP transition strategies, such as phased rollouts and big-bang approaches, and learned how organizations choose strategies based on their specific needs and risks. The ERP implementation process was broken down into key stages, from planning and system selection to data migration and deployment, offering practical insights into how to execute these steps effectively. A major focus was placed on issues that arise in ERP project management, such as scope creep, budget overruns, and change management. The session provided actionable solutions to overcome these challenges, emphasizing the importance of clear communication, proper resource allocation, and stakeholder alignment.
