1. **Introduction:**

SPSS (Statistical Package for the Social Sciences) is a powerful statistical software widely used in social sciences, including monitoring and evaluation. M&E professionals use SPSS to analyze and interpret data collected from various sources to make evidence-based decisions. It provides an efficient and organized way to manage large and complex data sets and perform advanced statistical analysis, making it an essential tool for M&E professionals. SPSS offers a

wide range of statistical tools and techniques that can be used to analyze data, such as descriptive statistics, inferential statistics, correlation analysis, regression analysis, factor analysis, and cluster analysis. These tools enable you to explore and understand the relationships between variables and make informed decisions based on the data.

As a component of the TAP-R model, research plays a vital role in the learning process of MBA programme. The use of SPSS can help MBA students plan and organise their research work in a more efficient manner. With this idea, a workshop on data analytics and SPSS was organized for the MBA Semester I students of CMS Business School.

2. Program Objectives:

To acquaint the students with knowledge about the following:

- Types of data
- Scales of measurement of data
- Data collection methods
- Sampling techniques
- Descriptive statistics
- One sample t-test
- Analysis of Variance (ANOVA)
- Chi-square test
- Correlation
- Regression

3. Relevance to PO, Relevance to PEO and PSOs

PO	Program Objective (PO)
PO1	Apply knowledge of management theories and practices to address and resolve business challenges
PO2	Demonstrate analytical and critical thinking abilities for information-based decision making
PO3	Analyse global, economic, legal and ethical aspects of business
PO4	Apply trans-disciplinary tools and techniques towards effective problem solving
PO5	Assist others and self in accomplishing organizational objectives and contribute effectively to a collaborative team setting.

PO6	Exhibit an entrepreneurial mind-set for the establishment of sustainable businesses and societies.
PO7	Exemplify value-based leadership for excellence

4. Activity Overview:

A Workshop on **Data Analysis in Economics using SPSS** was organized for the students of MBA Batch 2023-25, Semester I, Sections I, J, K, P, G, H & N as a part of their research learning process under the course Business Economics. It was a four-hour workshop with three parallel sessions. Speaker for the sessions were Dr. P Srinivasan, Dr. Magesh Kumar, Dr. Moovendhan V.

5. Guest/Speakers' Profile: Brief description about Guest: (at least one paragraph)

1. Dr. Magesh Kumar

Dr. Magesh Kumar is currently working as an Assistant Professor at the School of Business & Management in the Christ Deemed-to-be University, Bangalore. His academic career started at Karunya University, Tamil Nadu as an Assistant Professor for seven years in the Department of Management Studies and later worked for four years in the School of Management at the Presidency University, Bangalore.

He has done his graduation in Hotel Management and Catering Science from Madurai Kamaraj University and worked in the hospitality sector for nearly four years of which one year he worked as a Catering Manager in Doha, Qatar. He has pursued his Master's in Business Administration (General) from Frederick University, Cyprus, European Union. And with a higher interest in academics, completed his Masters of Science (M.Sc.) in Finance from the University of Wales, London, UK.

Dr. Magesh Kumar was awarded a Ph.D. in the area of financial services under the broader theme of financial inclusion. During his stint of research, his research proposal for the Ph.D. topic was screened and shortlisted for the presentation phase by the funding agency Indian Council of Social Science Research (ICSSR) during the year 2017. An inquisitive researcher, Dr. Magesh Kumar has published papers in ABDC-ranked and Scopus Indexed Journals and also presented papers at National and International conferences.

To note a few, papers were presented at the International Conference held at IIM Kozhikode, and IIM Indore-NASMEI 2019 Summer Marketing Information Systems Conference. Recently completed Corporate Finance I: Measuring and Promoting Value Creation an online program authorized by the University of Illinois at Urbana-Champaign. Also, he has achieved the highest band score of 7 in the International English Language Testing System (IELTS) which is the world's most popular English language proficiency test for higher education and global migration.

2. Dr. P. Srinivasan

Dr. P. Srinivasan is an Associate Professor at the School of Management (SOM), Presidency University, Bangalore, Karnataka, India. the area of Applied Econometrics and Advanced Research Methods. And he has been the key resource person of several workshops on Research Methodology.

3. Dr. Moovendhan.V

Dr. Moovendhan holds M.Tech (Information Management) from the University of Mysore and a Fellow of Indian Institute of Management, Indore (PhD) in the area of Strategic Management and organizational behavior. Moovendhan has over 15 years of Industry experience in Research and Consulting domain such as Datamonitor, CRISIL (An S&P Company), and CMIE and seven years of teaching. Presently he is with Center for Management Studies (CMS), Jain University Bangalore. He has a research interest in Strategy, Strategic Marketing, Organizational Behavior and application of machine learning and data science techniques to solve problems in management.

6.   Summary and Key Learnings of the session:

The session by Dr. P Srinivasan, Dr. Magesh Kumar/Dr. Moovendhan was thoughtfully structured, with a comprehensive exploration of research fundamentals, encompassing topics like the definition and types of research. He seamlessly transitioned into discussing research design, types of data, scale of measurement, developing a sampling plan, types of sampling methods, and hypothesis formulation. In the subsequent session, the speaker provided the students with SPSS datasheets for hands-on practice of statistical techniques, including Descriptive Statistics, Paired Sample T Tests, Independent Sample Tests, and One-Way ANOVA, correlation and regression. The data used for testing was taken from real world example and students were able to follow the instructions and execute the same in their own laptops. The speaker had answered to all the queries of the students with individual attention. This practical approach made the learning experience engaging and highly beneficial.

Dear Sir,

Greetings from JAIN (Deemed-to-be University), CMS Business School.

CMS Business School, an integral part of JAIN (Deemed-to-be University), is India's leading Business School with an international perspective. It is a place where ideas are born, theories are debated and business is done. Much more than a source of knowledge, it is a catalyst that can make a difference to the career and personal progression of students. Our MBA Program has a strong foundation in academic research, yet is designed to tackle the very real issues that face today's international business community.

Its dynamic curriculum, meticulously designed in collaboration with academic experts and industry leaders, offers unparalleled opportunities to master new skills and explore diverse perspectives for the students.

The Business is accredited by the National Board of Accreditation (NBA) and is also an esteemed member institution of the Association to Advance Collegiate Schools of Business (AACSB), USA, and the Business Graduates Association (BGA), an international membership and quality assurance body. BGA is part of the same organization as the Association of MBAs (AMBA).

We are pleased to inform you that JAIN (Deemed-to-be University), CMS Business School is organizing a workshop titled Data Analysis in Economics, on the 9th of September 2023 for the students of MBA Batch 2023-25.

On behalf of the General Management Area, CMS Business School, it is our privilege to invite you as a **Resource Person** for the workshop.

Please find below a brief on the workshop.

The workshop aims to provide comprehensive hands-on training on Data Analysis Techniques in economics using SPSS software, aiming to equip the students with the essential skills and knowledge required to conduct high-quality research across various disciplines.
