"Attention Guys

PFA the poster meant for the FIG event to be held on 12th March, 2024 from 2-4 PM.

The event is titled as PERFORMICORN - 2024 AND BEYOND. The main rationale behind the same is now that most of the listed startups which have become unicorns with a valuation of \$1 billion and above which are mainly policy bazaar, zomato, paytm, nykaa and delhivery, are yet to make a good show of their PERFORMANCE as measurable by their profitability despite high growth and high risk. Since mid 2022 we find that the funding agencies have become known for funding winter (in respect of most of the startups) and are driving the importance of profits now that for example zomato has completed nearly 14 years of its existence.

The main takeaways for the students are that as a team they have to take the place of the founding/top management team and answer a panel of jury members:

- 1) Ability to dig deeper and get comprehensive info about such companies
- 2) A peripheral understanding of the risk factors encompassing such companies
- 3) An understanding of the governance checks and balances that such companies need to have given case studies of bharatpe(ashneer grover) and byjus(byju raveendran).
- 4) .A peep into the likely future plans they need to develop so as to win the continued trust and loyalty of customers and investors.
- 5) Ability to empathize with the founders, present their performance results and explain future plans which happen typically after the quarterly results are announced to quell the queries/concerns of the public & institutional investors.

Please ensure that the attached poster is circulated in your respective class groups along with the communication above.

Thank you,
